

# Evergreen Wealth Income

Get a monthly income today, then pass it on with a legacy to future generations tomorrow. All with just one payment.

## Life Insurance

Listening. Understanding. Delivering.

Prudential Hong Kong Limited  
(Part of Prudential plc (United Kingdom))

## **Important notes**

This product is a life insurance plan and is not a bank deposit. Prudential Hong Kong Limited (Part of Prudential plc (United Kingdom)) (“Prudential” or “we”) is the underwriter of this plan.

Standard Chartered Bank (Hong Kong) Limited (“Standard Chartered”) is an insurance agent of Prudential.

---

## **Key risks**

---

### **How may our credit risk affect your policy?**

The guaranteed cash value (if applicable) and insurance benefit of your plan are subject to our credit risk, and are not guaranteed by Standard Chartered Bank (Hong Kong) Limited, Standard Chartered Bank or any of their subsidiaries or affiliates. If we become insolvent, you may lose the value of your policy and its coverage.

### **How may currency exchange rate risk affect your return?**

Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your payout benefits to other currencies. Additionally, the conversion of your benefits to other currencies is subject to currency exchange restrictions applicable at the time when the benefits are paid. You have the sole responsibility to decide if you want to convert your benefits to other currencies.

### **What are the risks of surrendering your plan or withdrawing money from your plan?**

The liquidity of an insurance policy is limited. You are strongly advised to reserve adequate liquid assets for emergencies. For any surrender / withdrawal especially at the early stage upon policy inception, you may receive an amount considerably less than the premiums you paid.

### **How may inflation affect the value of your plan?**

We expect the cost of living to rise in the future because of inflation. That means the insurance you take out today will not have the same buying power in the future, even if the plan offers increasing benefit intended to offset inflation.

---

## **Investment philosophy**

---

### **Investment strategy**

We aim to protect the rights and manage the reasonable expectations of all Shareholder-backed Participating policyholders. Our investment objective is to maximise policyholders’ returns with an acceptable level of risk. We do this through a broad mix of investments.

The Shareholder-backed Participating Fund invests in various types of assets, such as equity-type securities and fixed-income securities to diversify investment risks. The equity-type securities aim to provide policyholders with the potential for a higher long-term return.

We adopt an actively managed investment strategy, which we adjust in response to changing market conditions. Under normal circumstances, our experts allocate a smaller proportion of higher-risk assets, such as equities, to insurance plans with a higher guarantee and a larger proportion of higher-risk assets to insurance plans with lower guarantees. In doing so, we aim to match the level of risk to the risk profiles of our products. We may utilise derivatives to manage risks or improve returns. We may also make use of securities-lending to enhance returns.

The following paragraphs explain the current investment mix according to our investment strategy. Should there be any material changes in the investment strategy, we will inform you of the changes and explain the reasons behind and their implications.

### **The investment mix of your plan**

The current long-term target asset allocation is as follows:

| Asset type              | Allocation (%)           |
|-------------------------|--------------------------|
|                         | USD-denominated policies |
| Fixed-income securities | 60%                      |
| Equity-type securities  | 40%                      |

Our guaranteed liabilities to the policyholders are mainly supported by fixed-income securities.

We primarily invest in fixed-income securities rated at least investment-grade. A small portion of high-yield and emerging-market bonds may be included to improve yield and diversification.

For equity-type securities, most of the investments are in stocks listed on major international exchanges.

Our currency strategy is to broadly match the fixed-income securities to the underlying policy denomination, while we allow more flexibility for equity-type securities for diversification. Subject to market availability and opportunity, we may invest fixed-income securities in a currency other than the underlying policy denomination and currency hedging will be used to reduce the currency risk.

We invest globally to achieve diversification benefits and we currently have a higher relative allocation in the US and Asia which will be reviewed regularly.

**We actively manage and adjust actual exposure in response to changing market conditions and opportunities. Given asset values may vary due to changes in the economic environment and investment performance, the actual allocation may vary from the target allocation above. On a regular basis, we review the investment mix to be in line with our investment objectives and risk appetite. For more information on the investment mix, please refer to <https://pruhk.co/investmentmix-en>.**

## Evergreen Wealth Income

With just a single payment, you can ensure your legacy lasts over generations and get a monthly income to use just as you wish.

Our **Evergreen Wealth Income** helps you grow your wealth steadily with a guaranteed cash value and a non-guaranteed terminal dividend. Then, when you decide, pass your plan on to give the next generation the wealth and the monthly income.

## Plan highlights

Grow your wealth with just a single premium

Both guaranteed and non-guaranteed monthly income for better financial liquidity

Pass on your wealth and the monthly income down the generations

Different death benefit settlement options to safeguard your family

Easy application – no medical checks

## The benefits

**Grow your wealth with just a single premium**

**Evergreen Wealth Income** offers **regular and steady returns** as well as **life cover** until the first life assured reaches 151 (age next birthday [ANB]) (the “benefit term”).

Pay just a **single premium** to start your wealth accumulation straight away – there are no more premiums so you are free to focus on other life plans.

As soon as your policy starts, its **guaranteed cash value** is **80% of your single premium**. As time goes on, you can see your **money growing through the policy years**. We will pay the guaranteed cash value when you surrender or terminate your policy.

We may also pay a non-guaranteed one-off Terminal Dividend when you surrender or terminate your policy after the end of the 3<sup>rd</sup> policy year.

To give you more financial flexibility, if you need your money for any reason, you can access the Total Cash Value of your plan or borrow up to 80% of its guaranteed cash value while keeping it in force.

This is a Shareholder-backed Participating Plan. The current long-term target asset allocation of your plan is 60% in fixed-income securities and 40% in equity-type securities. Click [here](#) or scan the QR code for more information on our Shareholder-backed Participating Plans, including our investment and bonus philosophies and the operation of the Shareholder-backed Participating Fund.

## Both guaranteed and non-guaranteed monthly income for better financial liquidity

As well as wealth accumulation, the plan offers a **Monthly Income** that consists of **guaranteed** and **non-guaranteed monthly income streams**. Use this Monthly Income **as you wish** – to support your wellness plans or cover your household costs.

From the end of the **13<sup>th</sup> policy month**, we pay you a **Guaranteed Monthly Income** for **50 years**; an instalment equal to **1.008%** of your plan's notional amount (which, at the time the policy is issued, the amount equal to your single premium), divided by 12, giving you more financial liquidity.

We also give you a **Non-Guaranteed Monthly Income** starting from the end of the **37<sup>th</sup> policy month until the end of the benefit term**, as you can see in the following illustration which includes projected Non-Guaranteed Monthly Income.

\* These are projected Non-Guaranteed Monthly Income. You can find more about this in the “Good to know – Understanding your Non-Guaranteed Monthly Income” section below.

You can simply take your **Monthly Income** to use as you wish, or leave it in the plan's accumulation account to earn non-guaranteed interest starting from the **11<sup>th</sup> policy year**.

### Good to know

#### What is notional amount?

Your policy will have a “notional amount” (which, at the time the policy is issued, the amount equal to your single premium). We use the notional amount to calculate the policy's premium, Monthly Income, guaranteed cash value, non-guaranteed Terminal Dividend and other policy values and benefits of the plan. It does not represent the amount of Death Benefit we pay. Any change to this notional amount will lead to a corresponding change in the policy's premium, Monthly Income, guaranteed cash value, non-guaranteed Terminal Dividend and other policy values and benefits of the plan.

#### Understanding your Non-Guaranteed Monthly Income

The amount of the Non-Guaranteed Monthly Income is not fixed and may vary during the payout period. We normally determine the amount of the Non-Guaranteed Monthly Income annually. The Non-Guaranteed Monthly Income may rise and fall. Under persistent unfavourable market conditions, the actual amount of the Non-Guaranteed Monthly Income may be significantly less than the projected amount.

### Pass on your wealth and the monthly income down the generations

To protect and provide for the people you love, you can keep your wealth flowing down the generations with our **Evergreen Wealth Income**. Once you **change** the person covered under the plan, we **cover the new life assured until the end of the benefit term**. You can do this after the end of the 1<sup>st</sup> policy year and during the lifetime of the current life assured **as many times as you wish**.

For example, you could make your son and then, later, your granddaughter the life assured under your policy. Together with transferring the plan's ownership, you can pass the policy down through the generations. Let your family use the wealth and the Monthly Income to secure their financial future. After you have transferred the plan's ownership to the next generation, they can use the Monthly Income so their everyday expenses are supported.

As a business owner, you can also change the plan's life assured to cover a new employee as part of their employment benefits when the employee who was the original life assured leaves the firm, letting the policy value grow.

### Different death benefit settlement options to safeguard your family

We will pay a **Death Benefit** to the beneficiary you choose if the life assured unfortunately passes away while the plan is in force. We will pay at least **100% of your single premium** as a Death Benefit, less any outstanding loans and interest.

You can choose how you would like us to pay the Death Benefit while the life assured is still alive; as a **lump sum**, in **monthly instalments** or **a mix of both**. These options allow you to protect your family flexibly.

### Easy application – no medical checks

You **do not need** to provide any **medical information** to take out an **Evergreen Wealth Income**, up to a certain total single premium that we set out in our administrative rules.

# How does the plan work?

## For legacy planning

Johnny is a 40-year-old entrepreneur who wants to pass his wealth down the generations, while having a regular income stream to enhance his financial liquidity.

He enrolls in an **Evergreen Wealth Income** for himself, and to give his plan a strong start, he pays a single premium of USD 500,000. To help his legacy planning, he can change the life assured **as many times as he wants** until the end of the benefit term after the end of the 1<sup>st</sup> policy year. This means he can pass the plan onto his children, grandchildren and to future generations, giving them the accumulated wealth and the Monthly Income.

**At the end of its benefit term**, Johnny and his family would have received a total of **USD 50,169,480<sup>4</sup>**; around **100.3 times** the single premium paid.

## Monthly Income for Johnny and his family's policy

- 1 Consists of USD 415,000 guaranteed cash value and USD 296,100 non-guaranteed Terminal Dividend.
- 2 Consists of USD 415,000 guaranteed cash value and USD 2,839,650 non-guaranteed Terminal Dividend.
- 3 Consists of USD 415,000 guaranteed cash value and USD 47,703,200 non-guaranteed Terminal Dividend.
- 4 Consists of USD 48,118,200 Maturity Benefit and a total Guaranteed and Non-Guaranteed Monthly Income of USD 2,051,280.

- **The amount of the Non-Guaranteed Monthly Income is not fixed and may vary during the payout period. You can find more about our "Monthly Income" in the "Product Summary" section below.**
- Ages mean ANB.
- The figures are only for illustration and we have calculated them with reference to the notional amount – an amount we use to calculate the policy's premium, Monthly Income, guaranteed cash value, non-guaranteed Terminal Dividend and other policy values and benefits of the plan.
- The example is not an indicator of future performance and the actual return may be higher or lower subject to investment performance.
- The projected (non-guaranteed) Total Cash Values above are composed of guaranteed cash value and non-guaranteed Terminal Dividend.
- The non-guaranteed benefits are estimated based on our dividend scale considering the current assumed investment return. This is not an indicator of the future non-guaranteed benefits.
- The above calculation assumes no cash value withdrawal and no policy loan while the policy is in effect. The figures in the above case may differ slightly from the actual amounts due to rounding differences.

# Product Summary

## Plan type

Basic plan

## Benefit term

Up to the policy anniversary of the first life assured's aged 151 (ANB)

## Premium term/Issue age/Currency

| Premium term | Issue age (ANB) | Currency |
|--------------|-----------------|----------|
| Single       | 1 – 75          | USD      |

- The life assured must be at least 15 days old when the proposal document is signed.

## Premium structure

The same premium rate applies across all ages, genders, smoking classes and regions of residence.

## Monthly Income

- The Monthly Income consists of a Guaranteed Monthly Income and a Non-Guaranteed Monthly Income.
- We will pay a Guaranteed Monthly Income; an instalment equal to 1.008% of the notional amount divided by 12 at the end of each policy month, from the end of the 13<sup>th</sup> policy month until the end of the 51<sup>st</sup> policy year.
- The amount of the Guaranteed Monthly Income is fixed throughout the payout period.
- We also give you a Non-Guaranteed Monthly Income starting from the end of the 37<sup>th</sup> policy month until the end of the benefit term, as you can see in the following table which includes projected Non-Guaranteed Monthly Income:

| Payout period   | Non-Guaranteed Monthly Income                                |
|---|--|
| From the end of the 37 <sup>th</sup> policy month until the end of the 612 <sup>th</sup> policy month | Each instalment equal to 2.772%* of the notional amount / 12 |
| From the end of the 613 <sup>th</sup> policy month until the end of the benefit term                  | Each instalment equal to 3.780%* of the notional amount / 12 |

\* These are projected Non-Guaranteed Monthly Income.

- We normally determine the amount of the Non-Guaranteed Monthly Income annually. The amount of this benefit is not fixed and may vary during the payout period.**
- We have the right to determine and declare the Non-Guaranteed Monthly Income more frequently than annually at our sole discretion.**

- The Non-Guaranteed Monthly Income may rise and fall. Under persistent unfavourable market conditions, the actual amount of the Non-Guaranteed Monthly Income may be significantly less than the projected amount.**

## Payout options for Monthly Income

You can choose from the following options for your Monthly Income:

### Cash Payment

Starting from the end of the 13<sup>th</sup> policy month, you can choose one of the following ways for us to pay your Monthly Income:

- direct credit to your bank account in Hong Kong via autopay; or
- via a local cheque in USD.

If the Monthly Income is paid in HKD, we will determine the exchange rate and it may vary from time to time.

Once we start paying the Monthly Income, the direct payout is the only option available for the first 10 policy years.

### Accumulation

- Starting from the 11<sup>th</sup> policy year, you can choose to leave the Monthly Income in the accumulation account to earn non-guaranteed interest. The current non-guaranteed accumulation interest rate is projected to be 3.5% p.a.

## Accumulation account

- When you choose to accumulate your Monthly Income in the accumulation account, we will pay you non-guaranteed interest.
- We will determine the non-guaranteed interest rate from time to time.
- The actual interest rate depends on several factors. These may include:
  - investment performance;
  - liquidity requirements;
  - policyholders' withdrawal from the account; and
  - the yields available in the market.
- If interest rates stay low for a persistently long period so that the effective interest rate earned on the accumulation account is less than the rate illustrated in the proposal, the actual accumulation account balance will be lower than we have illustrated.

## Terminal Dividend

- This is a one-off non-guaranteed dividend.
- We normally declare the dividend annually and may change the dividend from time to time.
- We have the right to determine and declare the dividend more frequently than annually at our sole discretion.

- The declared dividend may rise and fall and does not accumulate within the policy or form a permanent addition to the policy's value.
- After the end of the 3<sup>rd</sup> policy year, we will declare the dividend for your plan and we may pay it when you surrender or terminate your policy.

### Factors affecting the Terminal Dividend and the Non-Guaranteed Monthly Income

- The Terminal Dividend and the Non-Guaranteed Monthly Income we pay are not guaranteed and we may review and adjust them at our discretion. Factors that may affect them include (but are not limited to):
  - i. Investment performance factors – Your plan's performance will be affected by the return on the underlying investment portfolio of the plan and accumulation account. This could be driven by:
    - interest earnings from fixed-income securities and dividends from equity-type securities (if any);
    - capital gains and losses from investment assets;
    - counterparty default risk of fixed-income securities (such as bonds);
    - investment outlook; and
    - external market risk factors such as recessions and changes in monetary policies and foreign exchange rates.
  - ii. Claims factors – Our historical claims experience on death and/or other covered benefits, and projected future costs of providing Death Benefit and/or other covered benefits.
  - iii. Expense factors – These include direct expenses associated with issuing and maintaining your policy, such as commissions, overrides, underwriting and policy administration expenses. They may also include indirect expenses (such as general overheads) allocated to your policy.
  - iv. Persistency factors – Policy persistency and any partial surrenders of a group of policies may impact the dividend or the Non-Guaranteed Monthly Income we pay to the continuing policies.
- The actual future amounts of benefits and/or returns may be higher or lower than the values currently presented in the marketing materials. Our website at <https://pruhk.co/bonushistory-SHPAR-en> explains the bonus history and the Non-Guaranteed Monthly Income history.

### Death benefit and its settlement option

- If the life assured passes away while the policy is still in force, we will pay the beneficiary a Death Benefit equal to:
  - the **higher** of:
    - > 100% of the single premium you paid; and
    - > the **sum** of 101% of the guaranteed cash value and any Terminal Dividend;
  - **plus** any amount in the accumulation account;
  - **less** any outstanding loans and interest.
- Death Benefit Settlement Option:
  - You can decide, while the life assured is still alive, whether we pay your beneficiary the Death Benefit in a lump sum or as a series of monthly instalments or a mix of the 2. If the Death Benefit amount you opt to settle by monthly instalments is less than a certain amount we determine, we will only pay the Death Benefit in a lump sum.
  - You can choose to settle the monthly instalment in a certain number of year options we provide.
  - If you choose the monthly instalment option, your beneficiary will receive the Death Benefit of a fixed amount monthly and earn interest on the remaining Death Benefit amount. We will pay the accumulated interest in the last instalment. We will determine the interest rate from time to time. This means the rate is not guaranteed and it depends on several factors including investment performance and the yields available in the market.
  - The beneficiary cannot make any changes to the way we pay the benefits at any time.
  - The remaining balance of the Death Benefit, which we pay by monthly instalments, will not participate in the Shareholder-backed Participating Fund or benefit from its profits.
  - We will cancel any Death Benefit Settlement Option and will pay the Death Benefit in a lump sum when you:
    - > change the policy ownership; or
    - > assign the policy ownership; or
    - > change the life assured.
- You can refer to our website at <https://pruhk.co/death-benefit-settlement-scb-en> for more details on the Death Benefit Settlement Option.

### Maturity Benefit

When your plan reaches the end of its benefit term, we will pay a Maturity Benefit equal to:

- the guaranteed cash value;
- **plus** any Terminal Dividend;
- **plus** any amount in the accumulation account;
- **less** any outstanding loans and interest.

## **Surrender value**

When you surrender your policy, we will pay a surrender value equal to:

- the guaranteed cash value;
- **plus** any Terminal Dividend;
- **plus** any amount in the accumulation account;
- **less** any outstanding loans and interest.

## **Change of life assured**

- You can change the life assured after the end of the 1<sup>st</sup> policy year and during the lifetime of the current life assured while the policy is in force.
- You can change the life assured as many times as you wish.
- The approval of change of life assured is subject to our underwriting requirements.
- When you apply to change the life assured, the new life assured must fulfil the issue age requirements of this plan at the time of application.
- Changing the life assured will not affect the policy value under the plan, including the single premium, the notional amount, the Monthly Income, the guaranteed cash value, any Terminal Dividend and any amount in the accumulation account.
- Change of life assured also applies to business insurance (as part of the employment benefits) subject to our underwriting requirements and administrative rules.
- According to the existing administrative rules, the new life assured can only be a) the current policyholder, b) the policyholder's spouse, c) the policyholder's child, grandchild or great-grandchild and d) the policyholder's employee.
- You cannot change the life assured if the life assured is below age 18 when we issued the policy or at the time you made them the life assured, unless you have assigned the legal ownership of your policy to them when they reach age 18 or above.
- Once you change the life assured, we will cancel any Death Benefit Settlement Option and nomination of the beneficiary.
- We may change the underwriting requirements and administrative rules for changing the life assured from time to time.

## **Cash value withdrawal**

- You can choose to withdraw the Total Cash Value from the policy by reducing the notional amount.
- If the notional amount reduces, the subsequent Monthly Income, guaranteed cash value, and any Terminal Dividend will also be reduced. Therefore, any cash value withdrawal will reduce the Death Benefit, Maturity Benefit and surrender value payable.

## **Policy loan**

- You can borrow up to 80% of your plan's guaranteed cash value, while keeping the policy in force.
- We will charge interest on policy loans from the date you take them out until they are fully repaid.
- We calculate interest at a rate we determine.
- If you have taken out a loan on your policy, we will use any payouts from it to settle any loans and interest before we pass the remaining money to you.
- If the total outstanding amount (including interest) owed to us under the policy exceeds 90% of the sum of the guaranteed cash value of the policy and any amount in the accumulation account, we will terminate the policy immediately.

## **Termination of this plan**

We will terminate this plan when the first of these happens:

- the death of the life assured; or
- the plan reaches the end of its benefit term; or
- you surrender the policy; or
- once the total outstanding loans and interest are more than 90% of the sum of the guaranteed cash value of this policy and any amount in the accumulation account.

## Important information

### **Suicide clause**

If the life assured commits suicide, whether sane or insane, within 1 year from the effective date of the policy, we will limit the death benefit to a refund of the premiums paid without interest. We will deduct any amounts we have already paid and any amounts you owe us under the policy.

After the life assured is changed, if the new life assured commits suicide, whether sane or insane, within 1 year from the effective date of the change of life assured, we will limit the death benefit to a refund of (i) all premiums paid without interest plus the amount in the accumulation account and less any amounts you owe us under the policy, or (ii) the surrender value as at the effective date of the change of life assured, whichever is higher. We will deduct any benefits we have already paid since the effective date of the change of life assured.

### **Cancellation right**

A customer who has bought the life insurance plans has a right to cancel the policy within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid less any withdrawals. Provided that no claim has been made, the customer may cancel the policy by giving written notice to us within 21 calendar days immediately following either the day of delivery of (1) the policy or (2) the notice (informing the availability of the policy and expiry date of the cooling-off period) to the customer or his/her nominated representative, whichever is earlier. Such notice must be signed by the customer and received directly by Prudential Hong Kong Limited at 8/F, Prudential Tower, The Gateway, Harbour City, 21 Canton Road, Tsim Sha Tsui, Kowloon, Hong Kong within the cooling-off period.

The premium and levy will be refunded in the currency of premium and levy payment at the time of application for this policy. If the currency of premium and levy payment is not the same as the plan currency, the refundable premium and levy amount in plan currency under this policy will be converted to the currency of premium and levy payment at the prevailing currency exchange rate as determined by us in our absolute discretion from time to time upon payment. After the cooling-off period expires, if a customer cancels the policy before the end of benefit term, the actual cash value (if applicable) may be substantially less than the total amount of premiums paid.

### **Automatic Exchange of Financial Account Information**

Over 100 countries and jurisdictions around the world have committed to adopt new rules for automatic exchange of financial account information ("AEOI"). Under the new rules, financial institutions are required to identify account holders who are foreign tax residents and report certain information regarding their investment income and account balance to the local tax authority where the financial institution operates. When countries or jurisdictions start exchanging information on an automatic basis, the relevant local tax authority where the financial account is maintained will then provide this information to the tax authority of the account holder's country of tax residence. This information exchange will be conducted on a regular, annual basis.

Hong Kong has adopted the new rules into its legislation (please see the Inland Revenue (Amendment) (No. 3) Ordinance 2016 ("the Amendment Ordinance") which came into effect on 30 June 2016). Therefore, the above requirements will be applicable to financial institutions in Hong Kong including Prudential. Under these rules, certain policyholders of Prudential are considered as "account holders". Financial institutions in Hong Kong including Prudential are required to implement due diligence procedures to identify account holders (i.e., policyholders in case where the financial institution is an insurance company) and in the case where the account holder is an entity, its "controlling persons", who are foreign tax residents, and report this information to the Inland Revenue Department ("IRD") if required. The IRD may transfer this information to the country of tax residence of such account holders.

In order to comply with the law, Prudential may require you, the account holder, to:

- (1) complete and provide us with a self-certification form with information regarding your tax residence status, your tax identification number in your country or countries of tax residence, your date of birth, and in the case where the policyholder is an entity (for example, a trust or a company), the classification of the entity that holds the policy and information regarding "controlling persons" of such entities;
- (2) provide us all required information and documentation for complying with Prudential's due diligence procedures; and
- (3) advise us of any change in circumstances which affect your tax residence status and provide us with a suitably updated self-certification form within 30 days of such change in circumstances.

According to the due diligence procedures set out in the Amendment Ordinance, self-certifications are required from account holders for all new accounts. As for pre-existing accounts, if a reporting financial institution has doubts about the tax residence of an account holder, it may require a self-certification from the account holder to verify its tax residence.

Prudential cannot provide you with any tax or legal advice. If you have doubts about your tax residence you should seek professional advice. You should seek independent professional advice on the impact that AEOI may have on you or your policy.

An account holder who knowingly or recklessly provides a statement that is misleading, false or incorrect in a material particular in making a self-certification to a reporting financial institution is liable on conviction to a fine at level 3 (HKD 10,000).

For further information on the implementation of the Common Reporting Standard and AEOI in Hong Kong, please refer to the IRD website: [www.ird.gov.hk/eng/tax/dta\\_aeoi.htm](http://www.ird.gov.hk/eng/tax/dta_aeoi.htm).
